

**Artwork Commissioning Details**

I no longer keep a studio with a showroom with printing/finishing capacities. I can facilitate printing service done by the contracted professional printing shop as the wrapped canvas. These are the following steps to order:

1. Please find the image of your choice on my website, then define the width of the printed photograph you would like to have and send it to me by email. I will email the essential details: the full size, the corresponding image edition number, and the price.
2. An optional step is "in situ previews." You would email me a photo of your wall space, including surrounding this space furniture, a measurement of one element defined on your image. I will then proportionally insert the artwork you selected on your wall space and email you a composed virtual image. This image would allow you to visualize the chosen size and your work's appearance in your living space.
3. When you are happy with your choice, I will send an invoice for a 25% deposit of the agreed price of the work. When I receive a credit card/PayPal payment, I will send the file to a printing shop. <http://artprinting.ca> 88 Lakeshore Rd. West, Oakville, ON (905) 338-1788
4. When your artwork is ready for pickup at the shop, you will receive a call/email and the second invoice (75% remaining of the purchase price). When you see the image on canvas and are happy with the result, you pay the invoice by credit card or PayPal using your smartphone. The shop and I get payment confirmation, and you take an artwork home. My clients don't pay HST. I do it at the printing shop.
5. If you decide a floating frame is needed, you can select the framing options at the shop from the wide range available. Pay the printing shop separately for the framing jobs if you need one.
6. The Art Printing Studio can ship the rolled printed canvas anywhere in Canada and abroad, and I have had no single complaint from my Canadian and American clients. Stretching canvas and optional framing can be done anywhere these services are available.
7. Please send me your postal address. It will allow me to send you the certificate of authenticity with the edition number, author signature, materials used, and the scene location. Should you need any assistance, please contact me at your convenience.
